

CREATING HEALTHY CITIES

Summit 2015

30 NOVEMBER & 1 DECEMBER 2015, RACV CLUB, MELBOURNE

Join leading Australian and international thinkers, to explore how we can build cities for the needs of today and tomorrow, and influence the national policy agenda for the betterment of Australian cities.

Nine out of ten Australians, and more than half the world's people, now live in cities. Our urban centres are engines of enterprise, rich in diversity and opportunity. But they also face enormous challenges, as urban growth, changing demographics, and congestion place increasing pressure on infrastructure, health, and the environment.

REGISTER ONLINE

Informed by the latest international research and best practice examples, the Summit will present solutions for thriving and liveable cities.

Program topics include:

- Transport and land use planning
- Design for health and wellbeing
- Managing migration for positive impact
- Fostering entrepreneurship in cities
- Safety and risk management
- Responding to climate change
- Innovative infrastructure delivery
- Technology and smart cities
- Revitalizing existing cities
- New forms of urban development
- Creativity and fun in urban areas
- Energy optimised cities
